PETITION UNDER 37 C.F.R. §1.10(c)

Pursuant to 37 C.F.R. §1.10(c), Applicants hereby petition the Commissioner to accord a filing date of February 6, 2002, for the above-identified patent application.

Specifically, upon receiving the Filing receipt (a copy of which is enclosed), Applicants' representative noted that a filing date of February 8, 2002, had been erroneously given to this application despite the fact that the "date in" on Express Mail label No. EV037477632US indicated that the application was deposited on February 6, 2002. A copy of the Express Mail label is attached. Also attached is a printout of shipment history from the United States Postal Service web site, which shows that the Express Mail package bearing label No. EV037477632US was in route as of February 6, 2002. This clearly serves as evidence that the "date in" was in fact February 6, 2002, as clearly indicated on the Express Mail label. As will be apparent from a review of the file, each piece of correspondence bears

the Express Mail label No. EV037477632US. Also enclosed is a copy of the returned postcard, which also indicates a filing date of February 6, 2002. However, it is noted that the United States Patent and Trademark Office's Patent Application Information Retrieval web site indicates a filing date for the application as being February 8, 2002, which is clearly also in error.

Insofar as 37 C.F.R. §1.10(c) does not indicate that any fee is due with this Petition, Applicants have included no such fee. However, if any fee is required, such fee may be charged to Deposit Account No. 16 2463.

Applicants submit that the requirements of 37 C.F.R. §1.10(c) have been met and, accordingly, the relief sought in this Petition should be granted and thus the application should be given a filing date of February 6, 2002, and a corrected Filing Receipt indicating the same should be issued.

Respectfully submitted,

JON H. BECHTEL ET AL.

Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
